Subject: Parents as storytellers

Dear parents and guardians

We would like to invite parents/guardians to perform a storytelling session in English language, in the English class of your child during February 2021 and May 2021. We believe that sharing and interacting in English will help the students to improve their proficiency of English. Meanwhile we would like to strengthen school-family cooperation through this activity.

We hope to help the students enjoy English language, and to stimulate their creativity and curiosity for English learning.

If you are interested in providing a storytelling session, please inform us about your availability according to the schedule of your child's English lessons, or you may contact us directly to coordinate a schedule at your convenience. According to the availability of the parents, we will schedule the activity and share with all parents afterward.

Thanks for your support and collaboration.
